Parking and Travel

Dear Parent,

I am writing to update you with some changes and reminders relating to parking on and around the school site.

Here are some key points to consider as we look to keep everyone safe and enjoying their journeys to and from school:

- Please park considerately in and around the village (i.e. not on footpaths or double-yellow lines and not blocking residents). The Community Car Park and Whittington Castle are available to parents for parking at the beginning and end of the day.
- Parents should not block the double-gates in the staff car park at any time. These are needed for emergency access and it is not a suitable drop-off point.
- Children should not use scooters or bikes in the car park at any time.
- Parents will now only be able to access the staff car park as follows:
 - Morning: 7:30am – 8:20am
 - After school: from 4:45pm
- The school expansion project requires the entry of large vehicles throughout the day, timed to minimise disruption to children. Please be mindful of this if accessing the staff car park for any reason.
- Taxis bringing children to school will be brought into the school car park to avoid unsafe drop-offs.

Many thanks for your continued support.

Mr Carl Rogers
Headteacher
